

# STOP at 4”:

## The Campaign to Stop Window Falls

### Pediatric Clinic - Window Safety Key Messages

In the U.S., 3,300 children under the age of 6 fall from windows every year. Around 8 children die each year. Children at highest risk: 1-6-year old's.

#### Key messages to share with families:

- **Keep furniture and anything a child can climb away from windows.** *(Children have climbed on furniture, toys, and even laundry and fallen out of a window.)*
- **Keep play away from windows and enforce the rule.** *(Play one or two steps away from all windows.)*
- **Install window stops or window guards.** *(That can be removed by adults on windows 72 inches from the ground outside.)*

#### Best Practice sample products:

**KidCo Window Stops (pkg of 2)**

**Guardian Angel Window Guards**
